BUSTLIN'
IN BROOKLIN?

FARMERS MARKET

The Brooklin Farmers Market is “UnBEETable”

Held every Saturday morning during the spring, summer, and early fall months, the Brooklin Farmers Market brings the community together.

Initially launched as a one-day event, the market returned on a regular basis thanks to its success and has since become a beloved local tradition.

Where: Municipal Lot 9 at 3 Vipond Road (near the Brooklin Community Centre and Library)

When: Saturdays 9am-2pm, June – October

The Brooklin Spring Fair

Organized by the Brooklin Agricultural Society, every year the community gathers to celebrate the annual Brooklin Spring Fair. Celebrating its 100th anniversary in June 2011, the fair is a long-standing community staple always held during the first full weekend in June. Activities usually include agricultural and homecraft exhibits, rides, a parade, and a variety of competitions including a pet show, youth talent show, demo derby events, carriage racing, a rodeo and more!

Where: Brooklin Memorial Park, 67 Winchester Rd E.

When: Thursday - Sunday, first week of June

It's a Growing Community

Did you know?

Whitby's population is expected to grow by approximately 40% over the next 11 years. The town of Whitby has experienced rapid population growth of 30.4% over the past 15 years outpacing the rest of Ontario.

And it won't stop there! Whitby's population is expected to keep growing, with a majority coming from West Whitby, Brooklin, and Port Whitby areas.

Source: study conducted by the Town of Whitby in May 2021.

GROWING COMMUNITY

DIGGING DOWN TO NET ZERO

The all-new Whitby Sports Complex is set to open in 2026 and will be located on the west side of Baldwin Street South, south of Highway 407 and the community of Brooklin.

The concept design for the facility was developed using feedback from the community. The complex is anticipated to include Durham Region's largest swimming pool, a double gymnasium, a twin-pad arena, flexible spaces to support community programming, and space for outdoor recreational opportunities such as tennis and basketball courts, soccer fields and more.

As part of The Town of Whitby's continuous commitment and strategic vision towards climate change, the Whitby Sports Complex will also become the home of the community's first- ever district energy system and Canada's first net zero certified sports complex that has both icepads and a swimming pool. A feasibility study funded by the federal government found that using geothermal energy should be 90% more efficient and will reduce greenhouse gas emission by 96%. Geothermal energy is a clean, renewable resource that uses heat produced deep in the Earth's core to heat and cool buildings, water, and generate electricity.

Whitby's geothermal energy system will be integrated into the construction of the new sports complex with plans that more businesses and surrounding buildings will be linked to it as the area develops.
