### myEnergy

Brookfield Residential homes are constantly conserving energy and water. They're built with sustainable materials and designed for the highest levels of performance.

- High efficiency two-stage furnace with ECM motor
- Energy Recovery Ventilator System (ERV)** provides fresh air within the home
- High efficiency hot water tank, or tankless water heater, per plan, rental agreement begins at occupancy
- Water-conserving toilets
- Foam insulation around all door and window surrounds. Foam insulation at floor of habitable rooms located over garage spaces to create a high-performance thermal envelope and increased comfort in home
- All windows and exterior door frames are caulked to create an airtight and watertight seal
- Performance of exterior wall construction exceeds industry standard. Professional testing by third party Energy Rating Consultant
- R22 Insulation with R5 continuous insulation in walls above grade; R60 insulation in ceilings with attic space above; R20 insulation in Basement walls below grade; R31 insulation in exposed floors or ceiling without attic space

### CONSTRUCTION DETAILS

- Poured concrete foundation with weeping tile and damp proofing. Basement walls wrapped with air-gap waterproof drainage layer
- Entrances may be sunken if required by grading conditions, per plan
- 2"x6" exterior framed walls; 2"x4" at garage walls
- 7/8" tongue and groove sub flooring, glued, screwed, and sanded at seams
- Structurally engineered floor joist system except in sunken areas
- Acoustic insulation and enhanced fire resistance material at common party walls between living spaces to reduce noise transfer, per plan

### LANDSCAPING

- Front entrance landscape package including a mix of trees and shrubs**, pre-selected from Vendor's preset packages. Personalized selection for 32' Single home designs
- Pre-cast concrete walks to front porch and rear patio step, where applicable
- Two-stage asphalt driveway (base and topcoat). Base-coat paving completed within the first year of occupancy to allow for seasonal settlement
- Grass at front and back yards
- All Walk-Out Deck and Look-Out conditions include a pressure-treated wood deck (or equivalent) with steps to grade and oversized rear basement window(s), as grade permits
- All Walk-Out Basement conditions include a pressure-treated wood deck (or equivalent), oversized rear basement window(s) and a sliding glass door or swing door from basement as grade permits, per plan

### GENERAL

- All selections to be chosen from Builder's standard samples
- Home professionally cleaned prior to occupancy
- Air ducts professionally cleaned prior to occupancy
- AquaPEX (flexible tubing) water pipes throughout
- Ducts sized for air conditioning unit
- Home construction meets and exceeds Ontario Building Code specifications

### WARRANTY

All homes are covered by TARION WARRANTY CORPORATION, includes:

- One (1) year Builder's comprehensive warranty
- Two (2) year limited warranty for plumbing, heating, and electrical systems, and building envelope
- Seven (7) year major structural warranty

Brookfield Residential is dedicated to achieving minimized home deficiencies through the efforts of our diligent team members and thorough quality assurance practices. Given that a home is built using several trusted trade partners, imperfections may still occur. Brookfield Residential is dedicated to delivering superior quality.

Please note: The Vendor shall have the right to make reasonable changes in the opinion of the Vendor in the plans and specifications if required and to substitute other material for that provided for herein with material that is of equal or better quality than that provided for herein. The determination of whether or not a substitute material is of equal or better quality shall be made by the Vendor whose determination shall be final and binding. Colour, texture, appearance, etc. of features and finishes installed in the Property may vary from Vendor's samples as a result of normal manufacturing and installation processes. E. & O.E.
